Crime Prevention Tips

Your Vehicle:

- Don't leave your car running unattended, ever.
- Don't leave keys in the car, even if in garage.
- Never leave children unattended in a vehicle, even for a minute. It is not only unsafe, it is against the law.
- While shopping, please leave pets at home, not in the car.
- Roll up windows & lock the car when not in use.
- Don't leave valuables or purchases in sight.
- Park in high-traffic and well-lit areas if possible.
- Don't leave mail, personal identification or other important documents in your vehicle.
- If your vehicle is stolen, report it to the police immediately.
- Be alert to your surroundings at all times. Check for suspicious activity or people loitering before you park and exit your car.

Your Home:

- Mark valuable items with your California Drivers License number. Televisions, stereos, etc., are items a thief is likely to steal. Keep a list of these items, along with their serial numbers, in a safe place.
- Secure patio doors. A steel or wooden rod in the guide channel will work. A pin type lock may also be used for added security.
- Keep your garage door down and locked. This helps protect property stored inside. While you are away, electric doors should be disconnected and padlocked.
- Make an inventory of items in your home. Take photos of valuable items. Keep one copy for yourself and give the other to your insurance company. Video record your entire home and all rooms containing your property and valuables.
